Our file no:

DEAR READER:

As Minister responsible for the Nova Scotia Community College System, I am very pleased to release The Community College Graduate Follow-up Survey, A Five-Year Summary, 1985-1989.

The Report is based on five years of information from the Graduate Follow-up Survey Reports (1985-1989) compiled by the Planning and Evaluation Division. The Department of Advanced Education and Job Training has been following up the outcomes of graduates over the past several years in order to better respond to changing labour market needs for skilled workers in Nova Scotia. The information from Graduate Follow-up Surveys has also been useful for counsellors and educators as they advise students, youth and adults who are considering career alternatives. This summary of past survey results provides a broad foundation of information about our graduates, as the Community College system evolves and continues to respond to changing labour market conditions.

As I release this first summary Report of Graduate Follow-up Survey results, I hope that the information presented will help readers gain a better understanding of trends and changes in the labour market for recent Community College graduates.

Yours very truly,

Ronald C. Giffin, Q.C.
Minister of Advanced Education
and Job Training

1 INTRODUCTION

INTRODUCTION

Background

The Five Year Summary was compiled by the Nova Scotia Department of Advanced Education and Job Training, Planning and Evaluation Division. It presents findings from the Graduate Follow-up Surveys for the years 1985-1989 inclusive. It should be noted that the Department of Advanced Education and Job Training previously had other names; however, the responsibility of conducting Graduate Follow-up Surveys has remained with the Planning and Evaluation Division.

The purpose of the information presented in the Five Year Summary Report is to help readers gain a better understanding of trends and changes in the labour market for recent Community College graduates.

Scope

The Five Year Summary 1985-1989 covered 1984-1988 graduates from 17 of Nova Scotia's training institutions. This included 13 Community College Campuses, called Vocational Schools up until the 1988 implementation of the Nova Scotia Community College System; Cobetec, Kingstec and Memorial High School, which operate under the administration of local school boards; and the Faculty of Training and Technology, University College of Cape Breton, administered by UCCB. Since this study was undertaken, Kingstec and Cobetec have been integrated into the Nova Scotia Community College with the passing of the Order in Council, May 14, 1991. Of these 17 institutions, the College of Geographic Sciences Campus was first included in the survey in 1986, UCCB was introduced in 1988, and the remaining institutions were a part of the survey since its inception in 1985.

Information about the employment status of graduates was gathered through an annual survey referenced to the last week of June, 1985-1989, approximately one year after graduation. Employment levels change over time, therefore it is important to keep in mind that **the annual survey findings show the outcomes of graduates for one point in time the last week of June, 1985-1989, respectively**.

Methodology

The findings from Graduate Follow-up Surveys conducted from 1985 to 1989 are summarized in this report. Over this time period the same methodology was used for each survey. A description of this methodology follows.

The survey methodology used for the Graduate Follow-up Surveys involved a self-completion questionnaire (See Appendix A) mailed out to graduates during the first week of July. Reminder cards were also sent at two different periods to prompt people to return their questionnaires if they had not already done so. After that, graduates who had not responded to the survey were contacted by telephone and asked to mail back their questionnaires. Using this methodology a high rate of response has been attained each year. From 1984 to 1988 there was a total of 15,158 Community College graduates. Of the 15,158 graduates, 10,214 responded to the survey over the five years, yielding an average response rate of 71.6%, when adjusted for undeliverable mail.

The very high overall response rate and consistent survey methodology resulted in accurate and reliable data each year. However, in order to interpret and understand the individual program statistics of the Five Year Summary, readers are advised to carefully review the User's Guide in the PROGRAM STATISTICS section of this report.

Report Organization

The report is comprised of four sections. This Introduction is followed by Section II, which lists the institutions whose graduates were surveyed.

In Section III, the summary outcomes of the five Graduate Follow-up Survey Reports are presented for comparative purposes. This section allows for review of the labour market results, e.g. employed related, employed not related, unemployed, not in the labour force (See Table 3.0) and a summary of the reasons for respondents not being in the labour force (See Table 3.1).

Section IV provides a User's Guide followed by information on the outcomes of respondents for each program over a five year period using a standard two-page table and graph format. **It is important to carefully review the User's Guide to gain a clear understanding of the program statistics presented.** The guide includes a discussion of the use of confidence intervals for programs with a low response rate and Appendix B lists those programs that did not meet the 90% ± 15% confidence level. Statistics for these programs are not included in this Five Year Summary. An overview of definitions, survey terminology, methodology used to compile results, and presentation format are also included, together with general guidelines regarding the interpretation of survey results. The two-page profiles of program statistics which follow the User's Guide contain the following results by program: labour market outcomes of all respondents; distribution of employment by type of employment (full time/part time, permanent/temporary); total employed, unemployed and not in the labour force; and distribution of employment by location. The second page contains the following four bar graphs for each program: survey population and number of respondents; relation of employment to training; full time/part time employment; and overall labour market outcomes.

Three appendices are attached to this report. Appendix A consists of all five questionnaires used to survey 1984 to 1988 Community College graduates. As stated earlier, the Department of Advanced Education and Job Training had a number of different names over the five year period, as seen in the questionnaires; however, the responsibility of conducting Graduate Follow-up Surveys remained with the Planning and Evaluation Division. Appendix B lists those programs that failed to meet the confidence interval over the five years, and discusses the calculation and use of confidence intervals in this report. Appendix C lists programs and the years that they were not offered.

II LIST OF INSTITUTIONS

LIST OF INSTITUTIONS

The statistics in this report are categorized by program in the individual summary pages in Section IV. In many cases programs were offered at more than one institution. Readers who are interested in obtaining current information about individual programs and specific institutions are advised to contact the particular institution. All institutions listed below are part of the Department of Advanced Education and Job Training except for Memorial High School which is under the administration of its own local school board and the Faculty of Trades and Technology, University College of Cape Breton, which is administered by UCCB. With the passing of the Order in Council May 14, 1991, Kingstec and Cobetec have since been incorporated into the Nova Scotia Community College but are currently operating under the administration of their local school boards.

III OVERVIEW OF SURVEY RESULTS

OVERVIEW OF SURVEY RESULTS

The Graduate Follow-up Survey Reports between 1985 and 1989 summarize the labour market outcomes of all respondents, including the percentage employed in related and unrelated fields, the percentage unemployed, and the percentage not in the labour force. These results are presented below in Table 3.0.

Table 3.0: SUMMARY OF LABOUR MARKET OUTCOMES 1985-1989

Summary of Outcomes	1985 %	1986 %	1987 %	1988 %	1989 %
Employed	75.1	75.2	77.9	77.6	79.7
Related	50.6	54.7	57.1	60.5	64.6
Not Related	24.5	20.5	20.7	17.1	15.1
Unemployed	20.4	20.4	16.0	17.0	15.5
Not in Labour Force	4.5	4.4	6.2	5.4	4.8

Employment Results ranged from 75.1% in 1985 to 79.7% in 1989, a steady increase in employment across the five years. This trend is repeated for those employed in jobs related to training, which increased from 50.6% in 1985 to 64.6% in 1989. As well, there is a concurrent decrease in employment in unrelated occupations ranging from 24.5% in 1985 to 15.1% in 1989.

Unemployment results from 1985 to 1989 indicate a general decrease in unemployment ranging from 20.4% to 15.5% respectively.

Finally, the percentages of respondents **not in the labour force** fluctuated throughout the five years, rising slightly in 1987 and 1988.

The reasons for respondents not being in the labour force are summarized in Table 3.1. From year to year, these reasons are relatively consistent, with attending school and personal or family responsibility being most frequently cited for all four years surveyed. This data was not available from the 1985 survey.

Table 3.1: REASONS WHY RESPONDENTS WERE NOT IN THE LABOUR FORCE

	1985		1986		1987		1988		1989	
	#	%	#	%	#	%	#	%	#	%
Attending School	N/A		38	40.9	78	57.8	38	37.2	27	27.8
Illness or Disability	N/A		12	12.9	12	8.9	20	19.7	14	14.4
Discouraged Worker	N/A		6	6.5	9	6.7	6	5.8	9	9.3
Personal or Family Responsibility	N/A		37	39.7	36	26.7	38	37.2	47	48.5

IV PROGRAM STATISTICS

PROGRAM STATISTICS

User's Guide

This User's Guide explains the terms and statistics presented in this report. Each program in the Program Statistics section contains one page for the statistical summary and one page for graphs. As an example, the statistical summary page for Dining Room Services, presented on the next page, is used in the explanation which follows. The graphics page for each program presents the summary results in visual form for survey population and number of respondents; relation of employment to training; full time/part time employment; and overall labour market outcomes. This portion of the program profile is self-explanatory and therefore, not included in the following example.

Before beginning a detailed explanation, several general observations should be noted regarding the use of survey statistics. First, employment levels change over time; the information contained in this report describes the status of graduates during the last week of June, 1985-1989. Second, while the average overall survey response rate from 1985 to 1989 is 71.6 percent, and the overall number of responses, 10,214 from 1985 to 1989, are excellent for a mail-out survey, some individual programs may have a lower response rate, and may involve small numbers. The conditions of the survey allow for high statistical accuracy in most cases, despite the occurrence of small-sized samples in several programs. This is because a high proportion of the program population (number of program graduates) is usually contained in the sample (number of respondents). However, in order to alleviate potential problems in interpreting statistics for programs which do have small numbers of graduates and/or low response rates, only statistics for those programs which fall within a 90% $\pm$ 15% confidence level are presented in this report. **This means that in nine out of ten cases, the actual percentage for employment is within 15 percentage points of the employment proportion calculated on the basis of survey responses.**

Finally, it is important that persons using the information in the Program Statistics section use judgement in their interpretation of the results. The tables which follow are only one tool which readers may utilize to obtain information about Community College programs and employment.

DINING ROOM SERVICES

Program Location: *Annapolis, I.W.Akerley, *Kingstec, *Memorial High

Definitions

Program Location lists the institutions which had graduates from the program named at the top of the summary page. The Dining Room Services program for example, had graduates from *Annapolis, I.W. Akerley, *Kingstec, and *Memorial High during the survey period of 1985-1989. The asterisk (*) next to the institution means that the program is no longer offered at that location.

N/A is a term used in the remaining sections of the summary pages to represent one of the following: 1) the program did not meet the confidence level (Refer to Appendix B); or 2) the program was not offered in that particular year (See Appendix C).

Survey Population is the number of people who graduated from the program in each of the five years. For example, in 1985 the survey population for the Dining Room Services program was 40.

Respondents are the number of graduates from the program who answered the questionnaire. In 1985, the Dining Room Services program had 21 respondents.

Response Rate is the percentage of the survey population responding to the questionnaire. The response rate for Dining Room Services in 1985 was 52.5%. It can be expressed as:

$$\frac{\text{Number of respondents}}{\text{Survey Population}} \times 100 = \frac{21}{40} \times 100 = 52.5\%$$

Labour Market Outcomes shows the status of all program respondents during the last week of June, 1985-1989. The numbers are reported in percentages. Employed respondents are defined as those who are working, or holding a job from which they are temporarily absent due to illness, vacation, labour dispute, etc. The unemployed are those who are not working, but seeking work. Persons not in the labour force are neither working nor seeking employment. They may be out of the labour force for a variety of reasons including attending school, being a homemaker, or suffering from illness or disability.

Summary of Respondents' Outcomes outlines the type of employment graduates obtained approximately one year after graduation, as well as the proportions unemployed and not in the labour force. Numbers are reported in percentages. All percentages in this section are expressed in terms of the number of respondents. Type of employment is indicated in a matrix with reference to: (1) employment category and (2) relation of employment to training. This allows the user to determine specifically what type of employment graduates obtained. The categories which are used in the matrix are defined below.

(1) **Employment Category**
Employment is specified in terms of permanent/temporary and part time/full time. There are four types of employment categories outlined in the Summary of Respondents' Outcomes.

Full Time employment is 30 hours per week or more.
Part Time employment is less than 30 hours duration per week.
Permanent employment has no pre-arranged termination date.
Temporary employment ends at a pre-arranged date (e.g. summer job).

(2) **Relation of Employment to Training**
Relation of employment to training is determined from responses to the survey question: "To what extent do you feel your job was related to the training you received from the institution you graduated from in 198_?" It should be noted that the 1985 survey had slightly different wording for this question (See Appendix A). Two categories are identified in the Program Statistics:

Related employment is work which is directly or indirectly related to training. The number of people who responded that their job was "directly related" or "indirectly related" to their training are reported under this category.

Employment not related to training is work which has very little or no relationship to the training received. The number of people who responded on the annual survey that their job was "not related" to their training are reported under this category.

Totals for "relation of employment to training" are indicated below each year in the Labour Market Outcomes Section which is labelled, "Total Employed." For example, in 1985, 28.6% of Dining Room Services respondents were employed in some type of job. As previously stated, the employed are defined as those who are working or holding a job from which they are temporarily absent due to illness, vacation, labour dispute, etc.

The last two items in this section give the percentages for Unemployed and Not in the Labour Force. The unemployed are those who are not working but are seeking employment. Persons not in the labour force are neither working nor seeking employment. In 1985 Dining Room Services had 38.1% of its respondents unemployed and 33.3% not in the labour force.

Rounding Note

In some cases percentages in the "SUMMARY OF RESPONDENTS' OUTCOMES" may not add up to the totals indicated, due to rounding. All percentages have been rounded to one decimal point. For accuracy, the percentages for the totals are calculated from actual number totals rather than adding the rounded percentages.

Location of Employment

In Location of Employment numbers are reported in percentages. In some cases the numbers may not add up to the total number employed due to missing data. All percentages in this section are expressed in terms of the number of employed respondents. For example, in 1986 Dining Room Services had 33.3% of its employed graduates working in the region of Halifax County.

Location of Employment by region is outlined below with reference to regions of Nova Scotia as well as other parts of Canada and elsewhere where applicable.

Halifax County	All of the Halifax Metro region and surrounding county
South West Nova Scotia	Digby, Lunenburg, Queens, Shelburne, and Yarmouth Counties
Annapolis Valley	Annapolis, Hants, and Kings Counties
North East Nova Scotia	Antigonish, Colchester, Cumberland, Guysborough, and Pictou Counties
Cape Breton	Cape Breton, Inverness, Richmond, and Victoria Counties
Other	Other provinces of Canada (excluding Nova Scotia), U.S.A. and Other

Program Name Changes

Over the five year survey period 1985-1989, several changes in program names have occurred. The table below summarizes these changes. It should be noted that throughout this report information is summarized according to the most recent program name. For example, information relating to graduates of Shipwright and Boat Building has been summarized under Boat Building, this being the current program name. Referring to the table below every program with the letter (A) next to it indicates the most recent program name, and every survey year enclosed in brackets indicates that the respective program did not meet the confidence level in that given year (See Appendix B).

Accordingly every program with the letter (B) next to it indicates the previously used program name, and every survey year left unbracketed indicates that that particular program met the confidence level for that year. That program's results are therefore found in the respective program summary page.

It should be noted that some programs, which are similar in content but which have different program names, have been surveyed individually over the past five years. Because these results have consistently remained separate in the individual survey reports, they have been reported as such in The Five Year Summary.

Table 4.0: PROGRAM NAME CHANGES

Program	Location	Survey Years
(A) Business Equipment Technology	Halifax	1986, (1987), 1988, (1989)
(B) Business Equipment Repair	Halifax	1985
(A) Boatbuilding	Lunenburg	(1988), 1989
(B) Shipwright	Lunenburg	1985, (1986)

APPENDIX A: SURVEY QUESTIONNAIRES (1985-1989)

Nova Scotia

Department of Labour and Manpower

№ 3197

1985 Maritime Provinces Vocational School Graduate Follow-Up Survey

IMPORTANT – All responses will be kept strictly confidential. At no time will your name be revealed.

06 AGE _____ YEARS 07 SEX 1 ☐ MALE 2 ☐ FEMALE

PREVIOUS EDUCATION

1. Indicate the highest level of education you successfully completed before attending vocational school.

08
- 1 ☐ GRADE 9 OR BELOW
- 2 ☐ GRADE 10
- 3 ☐ GRADE 11 (OR G.E.D. GRADE 11)
- 4 ☐ GRADE 12 (OR G.E.D. GRADE 12)
- 5 ☐ SOME UNIVERSITY
- 6 ☐ UNIVERSITY DEGREE COMPLETED
- 7 ☐ OTHER COURSES COMPLETED
  SPECIFY PROGRAM/COURSE _____

EMPLOYMENT STATUS

2.(a) How many times have you been employed since you completed your vocational school program? (Count only the employment which lasted 5 days or more.)

09
- 0 ☐ NEVER EMPLOYED – IF NEVER EMPLOYED, GO TO QUESTION 3
- 1 ☐ ONCE
- 2 ☐ TWICE
- 3 ☐ THREE TIMES
- 4 ☐ FOUR TIMES
- 5 ☐ FIVE TIMES
- 6 ☐ MORE THAN FIVE TIMES
  SPECIFY NUMBER _____

2.(b) Of the times employed, how many times were you employed in work related to your training?

10
- 0 ☐ ZERO (NO TRAINING RELATED JOBS)
- 1 ☐ ONCE
- 2 ☐ TWICE
- 3 ☐ THREE TIMES
- 4 ☐ FOUR TIMES
- 5 ☐ FIVE TIMES
- 6 ☐ MORE THAN FIVE TIMES
  SPECIFY NUMBER _____

3. Are you presently employed?

11
- 1 ☐ **YES** – ANSWER THE QUESTIONS IN **PART A ONLY** ▼
- 2 ☐ **NO** – ANSWER THE QUESTIONS IN **PART B ONLY** ▼

PART A EMPLOYED

THE FOLLOWING QUESTIONS PERTAIN TO YOUR PRESENT JOB.

12 4. Is your present job
- 1 ☐ PERMANENT
- or
- 2 ☐ TEMPORARY

5. How did you find your job? **(Check one only)**

13
- 0 ☐ PERSONAL EFFORT (CONTACTED EMPLOYER)
- 1 ☐ THROUGH A CANADA EMPLOYMENT CENTRE
- 2 ☐ PRIVATE EMPLOYMENT AGENCY
- 3 ☐ THROUGH AN ADVERTISEMENT
- 4 ☐ THROUGH FRIENDS OR RELATIVES
- 5 ☐ THROUGH A PAST EMPLOYER (PART-TIME OR SUMMER JOBS)
- 6 ☐ THROUGH A UNION
- 7 ☐ SCHOOL PLACEMENT OFFICE
- 8 ☐ OTHER ACTION(S) – SPECIFY _____

6.(a) To what extent do you feel your job relates to the training you received in vocational school?

14
- 1 ☐ VERY CLOSELY RELATED
- 2 ☐ CLOSELY RELATED
- 3 ☐ SOMEWHAT RELATED

GO TO QUESTION 7

- 4 ☐ NOT VERY RELATED
- 5 ☐ NOT AT ALL RELATED

PART B UNEMPLOYED

4.(a) Do you have a job to start at a definite date in the future?

26 1 ☐ YES 2 ☐ NO

4.(b) What is the main reason why you are not working right now? **(Check one only)**

27
- 1 ☐ LOOKING BUT CANNOT FIND A SUITABLE JOB
- 2 ☐ WAITING FOR RECALL AFTER LAYOFF
- 3 ☐ NO LONGER INTERESTED IN FINDING WORK
- 4 ☐ ILLNESS OR DISABILITY
- 5 ☐ PREGNANCY OR MATERNITY LEAVE
- 6 ☐ PERSONAL OR FAMILY RESPONSIBILITY
- 7 ☐ ATTENDING SCHOOL

ANSWER ONLY QUESTIONS 8 AND 9 OF PART B

28
- 1 ☐ FULL TIME
- 2 ☐ PART TIME

COURSE/PROGRAM _____

If you are going to school, is it because you could not find employment

29 1 ☐ YES 2 ☐ NO

PART A
EMPLOYED

6.(b) If your job is "not very related" or "not at all related" to your training, indicate the most important reason why. **(Check one only)**

15
1 ☐ DID NOT LOOK FOR A TRAINING RELATED JOB
2 ☐ COULD NOT FIND A TRAINING RELATED JOB
3 ☐ CAN EARN MORE MONEY AT OTHER WORK
4 ☐ HAD A JOB USING MY TRAINING BUT IT DID NOT WORK OUT
5 ☐ MY TRAINING WAS NOT ADEQUATE TO QUALIFY ME FOR A JOB IN MY FIELD SO I TOOK OTHER WORK.
6 ☐ OTHER REASON – SPECIFY _____

7. How useful are the skills you learned at vocational school in performing the duties of your job?

16
1 ☐ COULD NOT DO MY JOB WITHOUT THEM
2 ☐ VERY USEFUL
3 ☐ USEFUL
4☐ OF SOME USE BUT NOT VERY MUCH
5 ☐ NOT USEFUL

8. In general how satisfied would you say you are with your job.

17
1 ☐ VERY SATISFIED
2 ☐ SOMEWHAT SATISFIED
3 ☐ INDIFFERENT
4 ☐ NOT TOO SATISFIED
5 ☐ NOT AT ALL SATISFIED

9. Please complete the following information about your job.

(a) Occupation _____

(b) Duties _____

_____

(c) Employer _____

_____

(d) Type of industry, business or service

_____

(e) Town, county and province _____

_____

(f) Average number of hours worked per week.

18–19 _____ HOURS

(g) Number of weeks you have been working at this job.

20–21 _____ WEEKS

(h) Approximate hourly wage

22
1 ☐ $4.00 to $ 6.00
2 ☐ $6.01 to $ 8.00
3 ☐ $8.01 to $10.00
4 ☐ over $10.00

10.(a) Are you employed in an apprenticable trade? (For example, carpentry, plumbing, refrigeration, etc.)

23 1 ☐ YES 2 ☐ NO ▶ END OF SURVEY

(b) If yes, are you registered with the Nova Scotia Department of Labour and Manpower?

24 1 ☐ YES 2 ☐ NO

▼

If no, do you plan to register in the future?

25 1 ☐ YES 2 ☐ NO

PART B
UNEMPLOYED

5.(a) In general how important is it to you that a job be related to your training or program of study?

30
1 ☐ VERY IMPORTANT
2 ☐ IMPORTANT
3 ☐ ONLY SOMEWHAT IMPORTANT
4 ☐ NOT VERY IMPORTANT
5 ☐ NOT AT ALL IMPORTANT

6. If you are presently looking for work, indicate the two most important reasons why you believe you are unemployed now.

31 MOST IMPORTANT REASON (Check only one)	SECOND IMPORTANT REASON (Check only one) 32	
1 ☐	1 ☐	NOT ENOUGH JOBS AVAILABLE
2 ☐	2 ☐	NOT ENOUGH JOBS AVAILABLE WHERE I CAN USE MY TRAINING
3 ☐	3 ☐	AVAILABLE JOBS REQUIRE MORE WORK EXPERIENCE THAN I HAVE
4 ☐	4 ☐	JOBS WITH SUITABLE PAY NOT AVAILABLE
5 ☐	5 ☐	UNABLE OR UNWILLING TO LEAVE THE AREA
6 ☐	6 ☐	MY TRAINING IS NOT ADEQUATE TO MEET REQUIREMENTS OF AVAILABLE JOBS
7 ☐	7 ☐	NOT IN UNION
8 ☐	8 ☐	OTHER REASON(S)

SPECIFY _____

_____

_____

7. Indicate the area(s) where you have actively searched for employment.

33 1 ☐ IN THE AREA WHERE I LIVE (WITHIN 50 Km OF PLACE OF RESIDENCE)

ALL RESPONSES WILL BE KEPT STRICTLY CONFIDENTIAL. AT NO TIME WILL YOUR NAME BE REVEALED.

CHARACTERISTICS

1. 01 AGE ☐☐ years 03 SEX 1 ☐ male 2 ☐ female

PREVIOUS EDUCATION

2. Indicate the highest level of education you successfully completed before attending the institution you graduated from in 1985.

04
- 1 ☐ Grade 9 or below
- 2 ☐ Grade 10
- 3 ☐ Grade 11 (or G.E.D. 11)
- 4 ☐ Grade 12 (or G.E.D. 12)
- 5 ☐ Some university
- 6 ☐ University degree completed
- 7 ☐ Other courses completed (ie. College or Business School) Specify program/course

_____

EMPLOYMENT

3.a) In total, approximately how many months have you been employed since you graduated in 1985?

05 ☐☐ months

3.b) Approximately how many of the months above were you employed in work which was related to the training you received? (Work "related" to training may be directly and/or indirectly related.)

07 ☐☐ months

4. Were you employed during the week of June 22-28, 1986?

09
- 1 ☐ YES ▶ Answer the questions in PART A only on page 2.
- 2 ☐ NO ▶ Answer the questions in PART B only on page 3.

PART A - EMPLOYED

(THESE QUESTIONS ARE TO BE ANSWERED ONLY BY THOSE EMPLOYED DURING JUNE 22-28, 1986)

THE FOLLOWING QUESTIONS PERTAIN TO YOUR JOB HELD DURING THE WEEK OF JUNE 22-28, 1986.

5. 10 Was your job
1 ☐ Permanent (without a known termination date)
or
2 ☐ Temporary (ending after a given period)

6. Could you have obtained your job if you had not taken your training program?

11 1 ☐ Yes 2 ☐ No 3 ☐ Don't know

7.a) To what extent do you feel your job was related to the training you received from the institution you graduated from in 1985?

12 1 ☐ Directly related ▼ GO TO QUESTION 8
2 ☐ Indirectly related ▼ GO TO QUESTION 8
3 ☐ Not related

7.b) If your job was not related to your training, indicate the most important reason why. (Check one only)

13 1 ☐ Did not look for a training related job
2 ☐ Could not find a training related job
3 ☐ Had a job using my training but it did not work out
4 ☐ Can earn more money at other work
5 ☐ My training was not adequate to qualify me for a job in my field so I took other work

8. In general, how satisfied would you say you were with your job?

14 1 ☐ Very satisfied 2 ☐ Somewhat satisfied 3 ☐ Not very satisfied

9. Please complete the following information about the job you held during June 22-28, 1986.

a) Occupation _____

b) Duties _____

c) Employer _____

d) Type of industry, business or service _____

e) Location of employment (town, county and province) _____

15 f) Average number of hours worked per week ☐☐ hours

17 g) Number of weeks you were working at this job ☐☐ weeks (number of weeks = start date until June 28, 1986)

19 h) Approximate hourly wage
1 ☐ $4.00 to $6.00 per hour
2 ☐ $6.01 to $8.00 per hour
3 ☐ $8.01 to $10.00 per hour
4 ☐ Over $10.00 per hour

PART B - NOT EMPLOYED

(THESE QUESTIONS ARE TO BE ANSWERED ONLY BY THOSE WHO WERE NOT EMPLOYED DURING JUNE 22-28, 1986)

5.a) Did you have a job to start after June 28, 1986?

20 1 ☐ Yes 2 ☐ No

5.b) What is the main reason why you were not working during June 22-28, 1986? (Check one only)

21 1 ☐ Looking but could not find suitable employment

2 ☐ Waiting for recall after layoff

3 ☐ No longer interested in finding work ▶ End of Survey

4 ☐ Illness or disability ▶ End of Survey

5 ☐ Personal or family responsibility ▶ End of Survey

22 6 ☐ Attending school ▶ 1 ☐ Full Time or 2 ☐ Part Time

23 ▶ Course/Program _____

▶ Were you going to school because you could not find employment? 1 ☐ Yes 2 ☐ No

▼ ▼

End of Survey

6. If you were looking for work during June 22-28, 1986, indicate the two most important reasons why you believe you were unemployed.

	Most Important Reason (Check one only)	Second Important Reason (Check one only)	
24-25	1 ☐	1 ☐	Not enough jobs available
	2 ☐	2 ☐	Not enough jobs available where I can use my training
	3 ☐	3 ☐	Available jobs require more work experience than I have
	4 ☐	4 ☐	Jobs with suitable pay not available
	5 ☐	5 ☐	Unable or unwilling to leave the area
	6 ☐	6 ☐	Training is not adequate to meet requirements of available jobs
	7 ☐	7 ☐	Not in Union
	8 ☐	8 ☐	Other reason(s) Specify _____

7. Indicate the area(s) where you actively searched for employment.

26 1 ☐ In the area where I live (within 50 km of place of residence)

27 2 ☐ Halifax Metro area

28 3 ☐ Throughout Nova Scotia

29 4 ☐ Throughout the Atlantic provinces

30 5 ☐ Other provinces in Canada

31 6 ☐ Throughout Canada

8. Approximately what hourly starting wage do you expect to be paid for employment?

32-35 $_____ per hour

APPENDIX B: CONFIDENCE LEVEL

CONFIDENCE LEVEL

The following 60 programs did not meet the 90% ± 15% confidence level for the survey year listed as indicated by **N/A** in the individual program summary pages. It should be noted that this is an accumulation of programs that failed to meet the confidence level over the span of five survey years. If separated on the basis of survey years, the number of programs failing to meet the confidence level from 1986 to 1989 are 20, 26, 32, and 30 respectively. The confidence level was not used in the 1985 survey.

LIST OF PROGRAMS WHICH DID NOT MEET THE 90% ± 15% CONFIDENCE LEVEL

PROGRAM	YEAR	LOCATION
Appliance Service	1986, 1987	I.W. Akerley
Boat Building	1986, 1988	Lunenburg
Bricklaying	1988	Annapolis, Cobetec, I.W. Akerley, Strait
Building Technology	1986, 1987	I.W. Akerley
Business Administration Technology	1988, 1989	I.W. Akerley
Business Computer Operator	1989	Kingstec
Business Computer Programmer	1986	Kingstec
	1988	Burridge, Kingstec
Business Education	1988, 1989	Memorial High
Business Equipment Technology	1987, 1989	Halifax

This section of Appendix B describes the methodology for assessing the confidence levels for program results which appear in this report. The conditions of the survey frequently allow for reasonable accuracy in the results despite a small-sized sample.

Methodological Considerations

It is important to observe at the outset that the possibility of error due to small samples is substantially offset in the annual Follow-up Survey by the small populations involved. It cannot always be concluded that a small sample leads to a high probability of substantial sampling error. Although small sample size is a factor governing the width of a confidence interval, reasonably accurate survey estimates can still be achieved in many, if not most cases, when a high proportion of the population is contained in the sample. It should also be stressed that a confidence interval derived from the usual statistical techniques assumes that sampling error is random. This assumption is unlikely to hold for the Follow-up Survey because the reasons for non-response to the survey may be tied to a graduate's ability (or inability) to obtain suitable employment. For example, a graduate may feel ashamed or bitter about not being able to find career-related employment (or any employment), and therefore, chooses not to respond to the survey. Despite this methodological concern, the assumption of randomness is accepted in most socio-economic research.

Confidence Interval Calculating Formulas

The Survey results in the publication are essentially presented as percentages of respondents having various characteristics. For the purpose of discussion, the characteristic under scrutiny is whether or not the graduates of a community college training program are employed. Literature indicates that a small-sample confidence interval about a percentage indicator can be determined by using the statistical formula:

$$P \pm t \sqrt{\frac{PQ}{n}} \cdot \sqrt{\frac{N-n}{n-1}}$$

Where:

- P is the proportion about which the confidence interval is being constructed. For example, if one-half of the survey respondents were employed, P would equal 0.5 (or 50%)
- Q is the complement of P, or Q = 1-P
- n is the sample size
- N is the population size
- t is the Student's 't' statistic, with the appropriate error level and n-1 degrees of freedom.

In addition to this statistics-based confidence interval, a "practical" confidence interval which has a 100% certainty range is used. This practical confidence interval can be illustrated by way of example.

Assume that a program has 12 graduates, i.e. a population of 12. In a sample of 10 of these graduates, i.e. there are two nonrespondents, 7 are employed (70%) and 3 are unemployed (30%). From this sample the percentage employed is estimated at 70%. The maximum that the employment proportion could be in error is if the two nonrespondents are both employed or both unemployed. If they were employed, then 9 of the total graduates would have found work; this represents 75% of the graduates (i.e. 9/12). Alternatively, if they were unemployed, the employment percentage would be 58% (7/12). As a practical matter, therefore, the confidence interval about the estimated 70% sample employment mean must range between 58% and 75%. In comparison, at the 90% confidence level, the statistical confidence limit is calculated to be $\pm$ 12%. Clearly, the practical confidence limit is superior to the statistical confidence level whenever the practical confidence interval is narrower, whether at the top or bottom range.

The methodology used to determine confidence levels for programs in this report involved a combination of the statistical calculation and practical calculation to obtain the narrower limits. Programs for which statistics are reported fall within the 90% $\pm$ 15% confidence level, meaning that nine times out of ten the

actual percentage for a given variable, employment, is within 15 percentage points of the proportion calculated on the basis of survey responses.

APPENDIX C: PROGRAMS NOT OFFERED

PROGRAMS NOT OFFERED

N/A is used in the individual program summary pages to indicate one of the following: 1) the program did not meet the confidence level (See Appendix B); or 2) the program was not offered in that particular year. The following table lists programs and years that they were not offered.

It should be noted that the College of Geographic Sciences Campus became part of the survey in 1986 and the University College of Cape Breton became part of the survey in 1988. All other institutions were included since the survey's inception in 1985.

It should also be noted that five programs listed at the end of the table did not have summary pages because the particular programs were either not offered or did not meet the confidence level over the five years. Therefore no statistical information is available for these programs.
